

It comes alive with you.

Your time with your bike is special. It's when you awaken every sense to the world around you, adrenaline coursing through your veins as you explore the very limits.

Your motorcycle deserves oil that delivers an instant response – so you can stay in full control and make the most of every moment.

That's why you need PETRONAS Sprinta with **UltraFlex™** technology.

It flexes to the multitude of demands in the bike's critical areas – the engine, clutch and gears – all at once.

- Engineered to come alive, delivering an instant response to rapidly changing road conditions
- Enables motorcycles to perform responsively from a cold start, in traffic and out on the open road
- Has a unique oil formulation that reacts instantly and flexibly – providing exceptional defence and performance.

# Come alive and make the most of every moment

## Catalyst

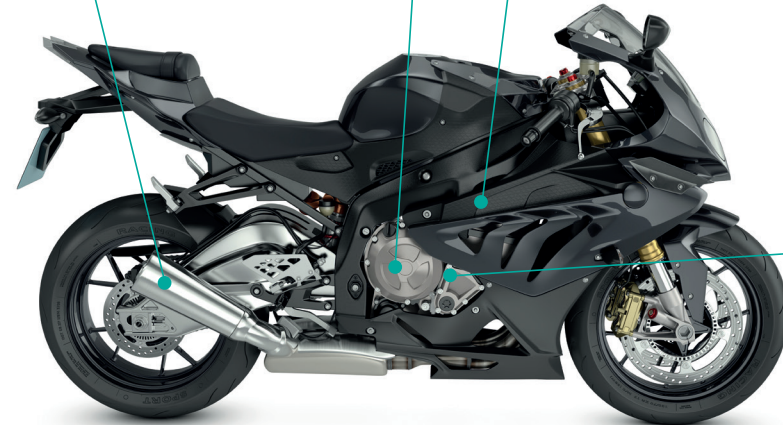

- Contains up to 50% less Sulphur than the industry limit for better catalyst durability.

## Clutch

- Creates the perfect amount of grip in the clutch to avoid slipping and maintain power
- Delivers the right friction coefficient rate to maintain optimal performance and prevent clutch wear.

## Engine

- Offers up to 50% lower foam creation than the API SN limit, enhancing engine performance and maintaining heat dissipation

## 4T

## Gears

- Performs up to 83% better in pitting control tests, compared to API SL oil, for rapid, smooth gear changes
- Offers high shear stability to prevent wear above and beyond the recommended JASO limits.

## 2T

### F900 5W-40

Cod. 73181

#### Specifications

- API SN Performance
- JASO MA2

#### Available

1L / 60L / 200L

### F900 10W-40

Cod. 73119

#### Specifications

- API SN Performance
- JASO MA2

#### Available

1L / 4L / 60L / 200L

### F900 10W-50

Cod. 73120

#### Specifications

- API SN Performance
- JASO MA2

#### Available

1L / 60L / 200L

### F700 10W-30

Cod. 73124

#### Specifications

- API SL Performance
- JASO MA2

#### Available

1L / 60L

### F500 10W-40

Cod. 73188

#### Specifications

- API SL Performance
- JASO MA2

#### Available

1L / 4L / 60L / 200L

### F500 15W-50

Cod. 73127

#### Specifications

- API SL Performance
- JASO MA2

#### Available

1L / 200L

### F300 15W-40

Cod. 73128

#### Specifications

- API SL Performance
- JASO MA2

#### Available

60L

### F300 20W-50

Cod. 73179

#### Specifications

- API SL Performance
- JASO MA2

#### Available

60L

### T900

Cod. 73136

#### Specifications

- API TC
- JASO FD
- ISO EGD

#### Available

1L

### T500

Cod. 73049

#### Specifications

- API TC
- JASO FC
- ISO EGC
- TISI

#### Available

1L

### T100

Cod. 73122

#### Specifications

- API TB
- JASO FB
- ISO EGB

#### Available

1L / 5L

## Instant performance

PETRONAS Sprinta with UltraFlex™ technology activates instantly, flowing smoothly and consistently to lubricate the engine.

## Instant defence

PETRONAS Sprinta with UltraFlex™ technology instantly delivers outstanding deposit and viscosity control to resist stress and heat.

## Instant care

PETRONAS Sprinta with UltraFlex™ technology has a formulation that meets the latest global environmental standards.
